

# 西安交通大学少年班情况说明

## A Brief Introduction to the Honors Youth Program in XJTU

西安交通大学少年班旨在培养综合能力较强，全面发展的智力超常少年，使其成为国家的栋梁之材。

西安交通大学少年班创办于一九八五年，每年在全国若干省份招生，通过初试和复试、笔试和面试、心理测试、智力测试和体能测试相结合的方法，从优秀的初中应届毕业生中选拔优秀学生进入本校学习。

进入少年班的学生首先要进行两年全日制预科学习。预科一年级分散在西安交大附中，江苏省苏州中学和天津市南开中学，主要学习高中知识；预科二年级进入西安交通大学学习，学习高中知识的同时，开始学习大学本科知识。预科两年期间，学生主要学习数学、物理、计算机、英语等内容，培养其建立扎实的理工科基础及良好的综合素质。两年结束成绩达到要求者，进入大学本科阶段学习，学制四年（或五年）。

因此，录取进入我校少年班的学生，毕业时均需修满六年（或七年）学业。

The Honors Youth Program (also known as Special Class for the Gifted Young) at Xi'an Jiaotong University (XJTU) aims at cultivating the gifted youth with comprehensive ability to become the mainstay of China or of the world.

This program started from the year of 1985. Students are selected nationwide through the comprehensive tests, including written exam, interview, psychological test, IQ (Intelligence Quotient) test and physical test. Only those with the excellent performance could be enrolled in this program.

The selected students are required to attend a full-time preparatory program at the first two years. In the first year, students follow the high school curriculum in one of the three preparatory high schools, i.e. the High School Affiliated to Xi'an Jiaotong University, Suzhou High School of Jiangsu province or Tianjin Nankai High School. In the second year, all students study both high school curriculum and college courses at Xi'an Jiaotong University. During the two-year preparatory period, students mainly study mathematics, physics, English, computer, etc., which enables them to establish solid foundations for later study in science and technology and prepares them to be well-rounded people. Students who meet the requirement of the preparatory program after two years can continue undergraduate education which takes four or five years to complete.

Therefore, students enrolled in this program must complete six or seven-year college education.
